Radu Rascol

SENIOR FULLSTACK WEB DEVELOPER

Over 12 years of experience building scalable web and mobile applications, from enterprise Angular platforms to fullstack NestJS backends and cross-platform apps. Passionate about clean architecture, reactive programming, and delivering production-grade solutions as an independent contractor.

WORK EXPERIENCE

01/2026
– present

Freelance / PFA
SENIOR FULLSTACK DEVELOPER

Independent freelance activity — developing web and mobile applications for multiple clients. Projects spanning Angular, NestJS backends, and cloud service integrations. Open to both freelance contracts and full-time employment.

Angular React NestJS TypeScript MySQL MongoDB Docker

05/2021
– 12/2025

P4B Group
SENIOR FULLSTACK DEVELOPER

Lead development of large-scale enterprise Angular 19 application (2400+ source files) with standalone components, signals, and PrimeNG 19. Built comprehensive role/permission management systems, reactive forms, reusable file upload modules with MinIO, and a contract editor with Romanian legal templates. Developed a React app for Microsoft Teams integration and a fullstack NestJS backend with JWT, 2FA, Google OAuth, and automated PDF generation.

Angular 19 React NestJS Prisma MySQL MongoDB MinIO Docker Kubernetes PrimeNG
Tailwind Konva.js Three.js

01/2017
– 05/2021

NTT Data Romania
WEB DEVELOPER

Implemented client requirements in Agile teams across multiple enterprise projects. Provided UX/UI consulting and worked across a wide range of technologies including CMS platforms, Java backends, and frontend frameworks. Gained broad cross-technology exposure across AEM, Episerver, and Angular.

Angular JavaScript Java .NET AEM Episerver Handlebars jQuery

12/2015
– 12/2016

SMARTERS
WEB DEVELOPER

Developed presentation websites and e-commerce stores. Handled client consulting, server hosting support, and end-to-end implementation from agreed designs.

PHP WordPress jQuery MySQL

04/2013
– 12/2015

DOW Media
WEB DEVELOPER

Built web applications and online stores from client-approved designs. Managed hosting deployments and consulted clients on best-fit web solutions.

HTML CSS PHP WordPress MySQL

EDUCATION

- 2016 – 2018 Master's — Telecommunications Networks Engineering
Universitatea Politehnica Timișoara
- 2010 – 2015 Bachelor's — Applied Electronics
Universitatea Politehnica Timișoara
- 2006 – 2010 High School Diploma
Colegiul Național Ecaterina Teodoroiu, Târgu Jiu

AI & LLM EXPERIENCE

Extensive hands-on experience integrating Large Language Models — primarily Claude by Anthropic — into real development workflows. This goes beyond casual use: LLMs are an active part of daily engineering practice.

ARCHITECTURE & PLANNING

Using Claude to design system architecture, plan database schemas, evaluate technology choices, and reason through complex trade-offs before writing a single line of code.

CODE GENERATION & REVIEW

Generating boilerplate, reactive Angular patterns, NestJS modules, Prisma migrations, and CI/CD pipeline configs — then critically reviewing and adapting output to production standards.

DEBUGGING & PROBLEM SOLVING

Diagnosing Angular NG0100 errors, RxJS race conditions, Docker networking issues, and Prisma query performance problems through collaborative reasoning with LLM assistance.

DOCUMENTATION & COMMUNICATION

Drafting technical proposals, client-facing documentation, contract templates, and multilingual UI content — including this CV — with LLM support.
